Tools & Other: GitHub, GitLab, Postman, VS Code, React DevTools

WORK EXPERIENCE

Full Stack Web Development Intern · LifeAdve · Nagpur | Aug 2026 – Present

- Developed and maintained LifeAdve's official company website, building responsive and user-focused web interfaces aligned with business and branding requirements.
- Implemented reusable, component-based frontend architecture to improve maintainability, consistency, and development efficiency across website sections.

Frontend Developer Intern · CLIDE-Analyser · Nagpur

Dec 2025 – May 2026

- Built SmartSDS (Intelligent Safety Data Sheet Management System) — engineered full React.js frontend for PDF/image SDS upload, OCR-extracted data review, inline editing & API integration; implemented automatic section detection, duplicate flagging, version control display & audit trail — enabling regulatory-compliant SDS lifecycle management with zero data validation errors in QA.
- Collaborated with the development team to debug issues, refine existing features, and deliver production-ready frontend functionality based on project requirements.

Web Designer Intern · Unisoft Technologies · Nagpur

Jun 2024 – Aug 2024

- Delivered 5 responsive client pages (HTML/CSS/JS) — zero cross-browser issues across Chrome, Firefox, and Safari on first QA pass.
- Completed certified training in C, C++, and .NET development; applied OOP concepts to internal tooling tasks.

PROJECTS

PPE Safety Detection Dashboard | React.js · Node.js · FastAPI · YOLOv8 · OpenCV · MySQL

- Designed & implemented full dashboard UI in React.js — integrated with FastAPI backend to display live video streams, real-time PPE violation alerts, violation logs & safety statistics.
- Built responsive, supervisor-friendly interface — reduced manual audit logging from ~3 hrs/shift to under 5 minutes; auto-report module generates safety reports in <10 seconds for 50+ concurrent shift workers.

AI Roommate Matching System | Node.js · Express · MongoDB · JWT Auth · React

- 3NF MySQL schema with composite indexes — profile-match queries execute in <50ms at 1,000-row test scale.
- Node.js/Express MVC backend with JWT auth + weighted compatibility algorithm; 0 unauthenticated endpoint exposures in full test suite.

EDUCATION

B.Tech — Computer Science & Engineering
